OBJECTIVE

I'm looking for full-time work in the IT industry.

PERSONAL STATEMENT

I am a hardworking and determined Level 6 Software Development Grad that has good computer programming skills and a strong working knowledge of Application Development (building and deploying software systems) and Back-end Development. I particularly enjoy designing and deploying software solutions (application, web, gaming and mobile) as well as working on team projects to implement enterprise level solutions, and would like to continue to develop my understanding in these areas.

I also love managing my own server at home, which is running Proxmox and has multiple kvs for running things like Plex for my family, websites, PBX, Mailcow, and Pterodactyl.

I am seeking Full-time employment (entry level position) in a technology company, either in software development or cloud management.

EMPLOYMENT HISTORY

Pita Pit

Auckland, New Zealand
August 2022 – February 2023

Crew Member

My employment at Pita Pit taught me how to interact with clients in a friendly and approachable way, as well as how to work within a team and a high stress environment.

Union Post

Auckland, New Zealand
May 2021 – August 2022

Kitchen Hand

Working at Union Post taught me how to manage resources effectively, so that other employees may take advantage.

QUALIFICATIONS

Techtorium

Auckland, New Zealand
2021 - 2023

Software Development

Waitakere College

Auckland, New Zealand
2021

Level 2

SKILLS SUMMARY

Quick Learner

As I've used computers for most of my life, and have had to learn all the different evolving ways to use them, I've gained all the necessary skills needed to advance quickly through whatever challenges are presented to me.

Problem solving

As a Software Development student and hobbyist homelabber, most of my time spent is problem solving how exactly to create a website or program, or implementation. Doing this for the many years that I have been, has helped build up this skill immensely, and most technical problems I encounter now can be solved in a short amount of time.

Self Development

I enjoy seeking out and developing new knowledge and skills.

INTERESTS

I enjoy cooking new recipes for myself and family, as well as learning how to run new and interesting things on my homelab. One of my favourite things to do to chill is play new indie card games that I've found online.

REFEREES

Natasha – Coworker at Union Post
021 088 01735
